PRODUCTION

SHOP DRAWING

"With more than 10 years knowledge, we've specialized in designing and production of interior materials for watercraft and buildings."

Following the customer's approval of the 2D and 3D designs, our designers create the production drawings in line with the original.

After the customer approves the 2D and 3D designs, our designers create precise production drawings. These drawings ensure our skilled craftsmen manufacture products that perfectly meet customer requirements.

By optimizing the manufacturing process, these detailed guidelines enhance efficiency, minimize waste, and reflect our commitment to sustainability.

CRUISE SHIP SUITE CABIN FURNITURE

We bring our clients' vision to life by manufacturing bespoke suite furniture according to approved designs and material specifications. Trusted for high-end cruise interior projects, we deliver premium craftsmanship, uncompromising quality, and worldwide installation with complete turnkey support.

PUBLIC AREA FURNITURE

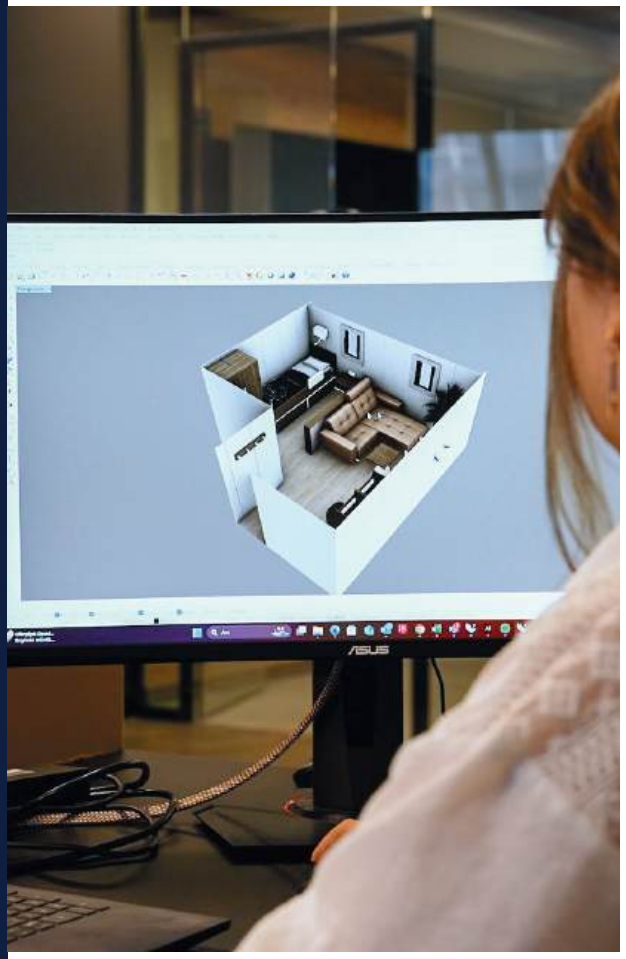

From lounges and restaurants to bars and reception areas, we create bespoke furniture that combines outstanding craftsmanship, premium materials, and marine-grade durability to enhance every guest experience.

CREW AREA FURNITURE

From cabins and mess rooms to offices and recreational spaces, we manufacture custom crew area furniture tailored to client requirements. Combining efficient production, premium craftsmanship, and worldwide installation, we deliver complete turnkey solutions.
